ASSESSMENT GUIDELINES

GENERAL POLICY

1. Assessment period:

The assessment period begins at the start of term one and finishes at the end of Term 4 - 2024.

2. Reporting to students and parents:

- As each assessment task is completed students will receive full and detailed information regarding their performance in the task.
- Parents will receive two written reports. The first at the end of semester one and the second at the end of semester two.

SCHOOL ASSESSMENT

The school's assessment is intended to provide an indication of a student's attainment which is based on:

1. a wider range of syllabus objectives than is measured by examinations
2. measures and observations obtained throughout the course.

The assessments are intended to measure students' progress relative to syllabus outcomes.

Students will be given a clear statement in writing at least two weeks prior to an assessment task.

RULES AND PROCEDURES

1. No marks will be given for assessment tasks that are not received by the due date and time.
2. Anyone attempting to cheat will have their task cancelled and will be awarded zero.
3. Students found to be attempting to cheat will have their parents contacted by the Head Teacher concerned.
4. Assessments prepared at home will be due to the subject teacher during the subject period timetabled for that day.
5. Assessments submitted in periods after the scheduled subject period may be awarded zero.
6. **Illness/Misadventure** - If a student is ill, or owing to reasons of genuine misadventure, is unable to attend on the day of an in-class assessment task, parents are asked to notify the school by telephone **by 9am of that day**.
7. If a student fails to complete an assessment task by the due date through illness then he/she must produce a note or medical certificate so as not to incur a penalty and to have an extension of time granted. In all other situations it will be up to the discretion of the Head Teacher to determine whether an extension of time will be granted.
8. The assessment task must be submitted or attempted on the day the student returns to school.

CONDUCT DURING ASSESSMENT TASKS

Assessment tasks completed during class hours involve the normal rules applicable to formal external examinations. Refer to "Conduct during the Examination" below. The completion of Year 7 is conditional upon satisfactory attendance, application and completion of course requirements.

EXAMINATION PROCEDURES

COMPLETION OF COURSE REQUIREMENTS

A student will be considered to have satisfactorily completed a course if there is sufficient evidence that the student has:

1. followed the course developed or endorsed by NSW Education Standards Authority (NESA); and
2. applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school;
3. achieved some or all of the course outcomes.

Students who have not complied with the above requirements should be regarded as not having satisfactorily completed the course. An interview with the Principal may occur to discuss the student's progress.

EXAMINATION DATES AND TIMES

Students are expected to note the time of examinations and be ready to participate 15 minutes before the scheduled time.

EQUIPMENT FOR THE EXAMINATION

TECHNOLOGY

DESIGN PROJECTS

Design Projects involve the design, production and evaluation of quality solutions that are functional and meet identified needs or opportunities. Students must undertake a minimum of four and a maximum of eight design projects.

For each design project students will develop a design folio as a document that provides ongoing evidence of the application of a design process and the specific technologies used in this process. This folio will document the students addressing the following:

1. In general, the design projects, presented to students by their teachers, are governed by the teacher's expertise and the classroom which the class is timetabled into for Technology. For example, the type of project attempted in a TAS kitchen will be very different from one presented in a Computer Learning Space and so on;
2. Design projects consist of four main areas: research, planning and design development, producing and evaluation. As a guide, most teachers would expect the following timetable for the completion of the design project.
